Council: C 219/2024-2025	24 APRIL 2025
SUBJECT:	SPECIAL ADJUSTMENT BUDGET

PURPOSE:

Council to consider for approval the 2024/25 Special Adjustments Budget to be tabled in terms of Section 28 of the MFMA.

DISCUSSION:

On the 26th March, the Municipality received Government Gazette no. 52381, in which the MIG allocation was reduced. In terms of the gazette, *"The stopping and re-allocation of conditional grants is done in terms of sections 18 and 19 of the 2024 DoRA, as amended, against municipalities that reported significant underperformance as at mid-year i.e., 31 December 2024."*

The following adjustment will need to be factored into this Special Adjustment Budget:-

GRANT ALLOCATION	ORIGINAL R'000	ADJUSTMENT R'000	REVISED R'000
MIG	60,549	(8,924)	51,625

OPERATIONAL BUDGET AMENDMENTS

- Transfers to grants and subsidies will be adjusted in terms of the amendment noted above.
- Also, revenue streams that reflect receipts greater than budgeted for have been considered that will assist in reducing the current year's deficit.

CAPITAL BUDGET AMENDMENTS

- The 3-year MIG implementation plan has been revised to cater for the R8,924m reduced allocation. The outer year revisions will be considered during the final 2025/26 budgeting process.

- The Disaster Response consolidated budget allocation of R49,927m has not been considered except for re-allocation of R2,493m over-expenditure to prevent unauthorized expenditures from being recorded in the financial system.
- The remaining R47,434m will be dealt with as a separate virement item to Council by the Civil Business Unit once the reallocation listing is complete.
- Minor amendments to furniture and equipment internally funded projects to cater for procurement under the Corporate Services business unit, the savings of which have been sourced from furniture & equipment under Fleet Management.

STRATEGIC AND LEGAL IMPLICATIONS

To ensure compliance with S28 of the MFMA

FINANCIAL IMPLICATIONS:

As discussed above.

1.3 EXECUTIVE SUMMARY

OPERATING ADJUSTMENT BUDGET

On the 26th March 2025, the Municipality received *Government Gazette no. 52381*, which is published in terms of the Division of Revenue Act No. 24 of 2024 (DoRA) as amended by the Division of Revenue Amendment Act No. 24 of 2024 (DoRAA) and provides information regarding the adjustment of allocations to municipalities in the 2024/25 financial year. The gazette highlights the stopping and re-allocation of conditional grants which is done in terms of sections 18 and 19 of the DORA as amended, against municipalities that reported underperformance as at midyear i.e. 31 December 2024, and/or non-compliance against conditional grant frameworks and the provisions of the Act against their 2024/25 allocations. At the end of March, the Municipality has recorded 39% expenditure against the approved MIG allocation.

In terms of the Gazette, the following adjustment was made to the MIG conditional grant of the Municipality which has been catered for under **Capital Transfers & Subsidies** in the Financial Performance table below: -

GRANT ALLOCATION	ORIGINAL R'000	ADJUSTMENT R'000	REVISED R'000
Municipal Infrastructure Grant (MIG)	60,549	(8,924)	51,625

A further analysis of the Municipality's financial performance revealed that certain revenue line items performed better than anticipated at the February adjustment budget. These will be incorporated into the adjustment budget to reduce the current **R 231m deficit** in the operational budget. These are : Interest on Bank Account; Demand Based Developers Contribution ; Interest on outstanding debtors (Property Rates) ; Correction on Housing Accreditation receipts - the grant was correctly accounted on the capital allocation but was not reduced on the operational budget, hence the R12k reduction.

- The MIG implementation plan has also been revised for 2025/26 and 2026/27 financial years, the amendments of which will be catered for during the final 2025/26 budget process.
- The following amendments will also be catered for: -
 - **Disaster Response consolidated budget allocation of R49,927m** will be re-allocated through a virement. The final listing of projects have not been received as at the date of finalisation of the item. Attending to the reallocation on a piecemeal basis may result in committed funding being reallocated to new projects, which in turn may result in over-expenditure of the Disaster Grant. A process for obtaining the full split of the R 49,9m consolidated budget has been agreed upon between the Civil Business Unit and the Finance Business Unit. In the interim, any overspending on disaster response will be covered by this allocation to prevent unauthorized expenditures from being recorded in the financial system. Currently R2,493m has been overspent as reflected below.

Council to note the above reallocation is based only on expenditures already paid and no further verification of the payments were undertaken at budget reallocation stage. These would have been undertaken prior to the payment. Therefore, the allocation of a budget provides no further assurances as to the nature, contractual obligations or risks the municipality may face.

GOVERNMENT NOTICES • GOEWERMENTSKENNISGEWINGS

NATIONAL TREASURY**NO. 6038****25 March 2025**

I, Enoch Godongwana, Minister of Finance, MP in my capacity as the Minister of Finance, hereby publish, in accordance with sections 18 and 19 of the Division of Revenue Act, 2024 (Act No. 24 of 2024) (DoRA) as amended by the Division of Revenue Amendment Act 2024 (DoRAA) (Act No. 48 of 2024), the attached Explanatory Memorandum and Schedules:

- (a) The stopping and re-allocation of conditional grants to municipalities made in terms of sections 18 and 19 of the DoRA as amended, and
- (b) Technical adjustments to Schedule 6B grants (indirect conditional allocations to municipalities).

For ease of reference only and where applicable, the attached Schedules reflect the main allocations, correction of errors, first and second adjustments, and total adjusted allocations.

MR ENOCH GODONGWANA
MINISTER OF FINANCE, MP

Explanatory Memorandum to the Allocations set out in the attached Schedule

This Gazette is published in terms of the Division of Revenue Act, 2024, (Act No. 24 of 2024) (DoRA) as amended by the Division of Revenue Amendment Act, 2024 (Act No. 44 of 2024) (DoRAA) and provides information regarding the adjustment of allocations to municipalities in the 2024/25 fiscal year.

This is necessitated by the need for the stopping and re-allocation of conditional grants to municipalities and is in terms of sections 18 and 19 of DoRA, as amended.

ALLOCATION OF DISASTER FUNDS: IMMEDIATE RELIEF SCHEDULE 7B

The publication also gazettes the unallocated amount of R153.2 million against the total amount of R153.2 million from the Municipal Disaster Response Grant (MDRG) for the 2024/25 fiscal year. The allocation was for flood intervention measures in one municipality in Free State, two municipalities in Mpumalanga, thirteen municipalities in KwaZulu-Natal, and ten municipalities in the Western Cape Province. Funds amounting to R55.2 million for Western Cape were transferred to the affected municipalities on 12 February 2025 to assist them alleviate the impact of the disaster, and these funds are required to be gazetted within sixty days after the date of transfer. An amount of R97.9 million from this immediate response grant allocated to municipalities in Free State, KwaZulu-Natal and Mpumalanga will be transferred by mid-March 2025 to the affected municipalities to assist them address the effects of the floods.

STOPPING AND RE-ALLOCATION: SCHEDULE 4B AND 5B (DIRECT)

The stopping and re-allocation of conditional grants is done in terms of sections 18 and 19 of the 2024 DoRA, as amended, against municipalities that reported significant underperformance as at mid-year i.e., 31 December 2024, and non-compliance with the provisions of DoRA, including against conditional grants frameworks against their 2024/25 allocations.

The purpose of sections 18 and 19 of the 2024 DoRA is to be a cash management tool and to circumvent transferring more funds to municipalities that are sitting with unspent transferred funds, avoid fiscal dumping, address possible misappropriation of conditional grant funds, and support fast moving projects in-year with additional funding to accelerate the implementation of those projects and service delivery in those municipalities. The stopping of funds, however, does not imply that projects should stop, rather municipalities should reprioritise to accelerate against their committed, and implementation ready projects. Only projects that are moving very slowly or are not ready for implementation in the current year are affected by the stopping process as transferring more funds could lead to the misuse of conditional grants. It is also of no use to transfer funds to municipalities which will not fully spend the funds by year end.

The stopping and re-allocation process provides that municipalities that are showing accelerated performance could be considered for additional funding, and the ones that are under performing could have their funds stopped in the current year. These municipalities will be supported in future when their performance improves.

Ten capital grants are being affected by the stopping and re-allocation process namely; the Water Services Infrastructure Grant (WSIG 5B), Regional Bulk Infrastructure Grant (RBIG 5B), Public Transport Network Grant (PTNG), Urban Settlements Development Grant (USDG), Informal Settlements Upgrading Partnership Grant (ISUPG), Neighborhood Development Partnership Grant (NDPG 5B and 6B), Integrated National Electrification Programme (INEP 5B and 6B) grant, Municipal Infrastructure Grant (MIG), Rural Roads Asset Management Systems Grant (RRAMS), and the Integrated Urban Development Grant (IUDG).

From a capacity building perspective, the Energy Efficiency and Demand Side Management (EEDSM), the Expanded Public Works Programme (EPWP), the Infrastructure Skills Development Grant (ISDG), and the Programme and Project Preparation Support Grant (PPPSG) are the three capacity building grants affected by sections 18 and 19 of DoRA.

STOPPING AND RE-ALLOCATION: SCHEDULE 6B (INDIRECT)

The transferring officer responsible for administering INEP 6B, Smart Meters Grant (schedule 6B) and NDPG 6B are stopping and re-allocating funds between municipalities. While the implementation of this type of conditional grants, i.e., Schedule 6B (indirect) is done on behalf of municipalities by the Department of Mineral Resources and Energy and National Treasury's Neighbourhood Development Partnership Programme and Smart Meters Grant, stopping and re-allocation are only done to realign the allocations in the revised DoRA.

Municipalities do not directly receive funding under schedule 6B conditional grants, but rather that they receive the benefit from expenditure and work done on their behalf.

ALLOCATION OF UNALLOCATED FUNDS: SCHEDULE 6B (INDIRECT)

The publication also gazettes the allocation of the unallocated amount of R500 million from the Smart Meters Grant (SMG) for the 2024/25 fiscal year. The allocation is an indirect allocation to municipalities in the debt relief programme to assist them to achieve financial sustainability and improved management in municipal electricity/water services and generate pre-service cash. This will be achieved by enabling municipalities to implement bi-directional smart metering systems to identify and reduce technical distribution losses pertaining to the municipal electricity/water function and improve revenue collection, and sustainability of trading services.

Municipalities do not directly receive funding under the schedule 6B conditional grants but rather that they receive the benefit from expenditure and work done on their behalf.

A handwritten signature in black ink is written over a horizontal line. The signature appears to be 'NJ Mdakane'.

DATE: _____

2024/25 SPECIAL ADJUSTMENT BUDGET

KWADUKUZA MUNICIPALITY	
BUSINESS UNIT: FINANCE BUSINESS UNIT	
COUNCIL:C220/2024-2025	24 APRIL 2025
SUBJECT:	THIRD QUARTER BUDGET & PERFORMANCE ASSESSMENT

PURPOSE:

To table the 2024/25 Third Quarter Operational and Capital Budget assessment covering the period July 2024 to March 2025.

DISCUSSION

S52(d) of the Municipal Finance Management Act, No. 56 of 2003 compels the Accounting Officer to assess the performance of the municipality during the financial year by, amongst others, considering the monthly budget statements compiled in terms of S71 of the MFMA. This report must be submitted to the mayor of the municipality, the National Treasury as well as the relevant Provincial Treasury.

The attached high-level assessment is based on revenue and expenditure recognised on the Municipal Financial System as at 31st March 2025. There have been numerous consultations sessions in the development of the report as it is incumbent on each business unit to ensure the completeness , validity and accuracy of the information provided for purposes of the assessment.

STRATEGIC & LEGAL IMPLICATIONS:

It is important for Council to have up to date information on the status of its operating and capital budget in order to enable Council to take necessary decisions and ensure that an effective oversight function is in operation. The quarterly budget assessments or review are intended to facilitate such a function, which is a requirement by the Municipal Finance Management Act.

Recommendations

- **THAT** the March 2024/25 Section 71(1) Monthly Budget Assessment Statement in the C Schedule (Annexure A) format as per No. 32141 GOVERNMENT GAZETTE, 17 APRIL 2009 be noted and approved.
- **THAT** the report be submitted timeously to National Treasury, Provincial Treasury and other organs of state as per the requirement of No. 32141 GOVERNMENT GAZETTE, 17 APRIL 2009.
- **THAT** the March 2024/25 Section 71(1) Monthly Budget Assessment Statement be tabled before Council.
- **THAT** the report be tabled in terms of S52(D) of the MFMA, Act No. 56 of 2003
- **THAT** the transactions resulting in the overstated Cash & Cash Equivalents closing balance on the Cash Flow Statement be timeously corrected by the Director Expenditure.
- **THAT** Council notes the Close Out report and Action Plan on the review of the 2023/2024 Draft Annual Financial Statements by Provincial Treasury.

- THAT Council notes the withdrawals from bank account, attached under 'Supporting Documents' in the report, in terms of Municipal Finance Management Act, Sec 11 (4).

1.3 EXECUTIVE SUMMARY

The analysis below is a high-level assessment based on revenue and expenditure recognised on the Municipal Financial System as at the 31st of March 2025. It is incumbent that the necessary user business units and user departments to ensure the completeness, validity and accuracy of the information provided for purposes of the assessment.

OPERATING BUDGET

The operating budget as reflected in Table C1 of the Budget Statement Tables can be summarised as follows:

DESCRIPTION	2024/25 Approved Budget R '000	2024/25 Adjusted Budget R '000	2024/25 YTD Budget R'000	Actuals As at 31/03/2025 R'000	Variance As at 31/03/2025 R'000

REVENUE

The reasons for the R 15,934m negative variance will be discussed with reference to the Table above together with C4 of the Budget Statement Tables. Please note that only material variances over 5 per cent / over a R1m will be discussed.

The main contributing factors to the over collection/billing include the following:

Service Charges - Refuse Revenue

- Billed Revenue from refuse services is R81,856m reflecting a positive variance of R4,551m. The variance in this revenue category is due to a higher billing than anticipated which can be attributed to the desk-top exercise conducted, monthly implementation of commercial refuse stats received for the South and additional billing arising from S78 adjustments.
- With the revenue billing section anticipating credits coming through, the budget was not considered for upward adjustment during the Adjustment Budget process.

Interest on External Investments

- Although the complete interest on External Investments for the month of March is yet to be captured onto the financial system, as bank statements are only received in the first week of the new month, a R15,180m positive variance from budgeted revenue was recognised. This is mainly due to the South African Reserve Bank's anticipated interest rate cutting cycle commencing later than planned and the unspent Disaster grants attracting interest.
- The total Interest on External Investments for the month of March is approximately R3,307m which has been posted in the 1st week of April 2025 on the financial system.
- The budget for interest on bank accounts was increased by R16m to R27,291m during the Adjustment Budget process. However, the interest recognized by the end of March exceeded the budget by R2,641m.

Interest earned - outstanding debtors

- The interest billed on outstanding debt has exceeded the R11m budget allocation, primarily due to R4,693m in interest billed on outstanding rates. This increased interest is as a result of non-payment of the principal debt owed to the Municipality. These growing arrears debt raises concerns for the municipality, as it highlights the economic instability of the current rate base of Council.

Other Revenue

Other Revenue category consists of Municipal Operational Revenue and the Sale of Goods and Rendering of Services. An overall positive variance of R8,210m is reflected.

Operational Revenue

- A positive variance of R15,373m is reflected under Operational revenue, which is mainly due to the receipt of R21,568m of R16m budget allocation for Developers Contribution. The budget for Developers Contribution was increased by R6m during the adjustment budget process.

Sale of Goods and Rendering of Services

- A negative variance of R7,163m is reflected under 'Sale of Goods and Rendering of Services. A budget allocation of R10m had been provided for the receipt of revenue from the Department of Housing for the construction of Housing Projects during the original budget approval. An identical construction contract expenditure budget had also been catered for. With the Department of Housing having taken over the processing of Housing Construction project payments and the Municipality only making payments related to planning and administration fees, the budget on both the revenue and expenditure categories have been reduced to R2m during the adjustment budget process. To date only R227k has been processed. The variance will therefore reduce by year end.
- Legal fees revenue pertains to recoveries of legal fees. R1,330m in receipts were collected for legal fees related to the KwaDukuza Mall case, which was heard at the High Court. The EDP business unit ensures the full collection of council funds from all court cases won and requested an additional R2,683m during the Adjustment Budget

process, anticipating further legal fee recoveries from additional cases taken to high court.

Property Rates

- Reflects a positive variance of R9,353m. Property rates are billed over a period of 11 months starting from August to June with annual rates being billed in the month of August, however the budget has been evenly apportioned over the 11 months of the financial year resulting in the timing of the billing reflecting a positive variance.
- The revenue section has analysed the trend in billing and catered for an overall increase of R14,885m during the adjustment budget process. R14m of this additional revenue relates to billing under Residential Developed Property.

Transfers & Subsidies - Operational

- Transfers and Subsidies reflects a positive variance of R65,551m at the end of March. The transfer recognised - Operational, revealed a positive variance due to the anticipated timing of grant receipts with the full allocation of Equitable Share being received by the end of March.
- The variance will reduce as the year progresses. A breakdown of the operational grant transfers can be reviewed on SC6 of the attached C Schedules.

The main contributing factors to the under collection/billing include the following:

Service Charges - Electricity Revenue

- Service Charges- electricity reflects a negative variance of R117,326m. The variance in this revenue category is as a result of the March billing being processed onto the financial system in the second week of April 2025. The billing is usually done around the 7th of the subsequent month whereas the report is based on the figures as at the end of each month.
- It must be noted that it is practically impossible to run the billing on the last date of every month due to the number of meters that need to be read and, more importantly, the bulk meters are only read either on the last day of a month or the first day of a new month. It must further be noted that bulk meters' account for the majority of our electricity consumption.
- mSCOA does not cater for municipalities to accrue revenue and expenditure in-year. Accruals are only permitted in the 13th period at financial year end. The system hard closes on the last day of each and every month. As a result, there will be a negative variance monthly until the July 2025 billing is processed and accrued to the 2024/25 financial year.
- The Electricity billing for March 2025 is R101,703m which has been billed on the 7th of April 2025. However, if this billing were to be considered, there would be a negative variance in electricity revenue of approximately R15,623m. It is also important to note

that Electricity service charges revenue was reduced by R13,140m during the Adjustments Budget. No back billing has been done for this quarter.

Agency Services

- Reflects R1,401m negative variance from budgeted revenue. The revenue receipted to this vote is the commission received from Department of Transport and is based on the monthly transactions for licensing and testing fees.
- The business unit has previously cited shortage of staff due to high vacancy rates and connectivity challenges to the Department of Transport eNATIS system, as well as the fact that other agencies being able to dispense the licenses, as reasons for not meeting revenue targets.
- The budget has been reduced by R1,4m during the Adjustment Budget process and the variance will probably reduce by year end.

Fines, penalties, and forfeits

- Fines, Penalties and Forfeits reflect a negative variance of R2,393m at the end of March. From the table below, it can be noted that the target for Rates: Penalties have not been met, with only R6,718m reflected of a budget allocation of R17m.

Gains

- Gains reflects a negative variance of R2,142m. Gains relate to the fair value of Investment Property which is a non-cash entry required in terms of compliance GRAP reporting. Revaluation journals are done at year end during the compilation of the Annual Financial Statements.

EXPENDITURE

The Third Quarter Budgeted Operating Expenditure was R2,105bn. The actual expenditure recognised was R1,922bn which implies that the municipality has realised a negative variance of approximately R183,702m in expenditure. The reasons for the variances will be discussed with reference to the table above together with C4 of the Budget Statement Tables, and is explained as follows:

Please note that only material variances over R1m and 5 per cent will be discussed.

Employee related costs

- The employee related costs reflect a negative variance of R17,022m at end of March. The variance is as a result of the timing of the filling of vacant positions, retirements, resignations, and untimely loss of municipal officials. Recruitment processes are on-going, and the variance should be eliminated as the year progresses. Director Expenditure has confirmed that the total employee related budget allocation will be spent by year-end.
- An additional R8,876m was requested during the adjustment budget process to ensure that sufficient funds were available for Employee Costs. Council is cautioned that this category is one of our major cost drivers and therefore only critical posts must be filled. Also posts that may have been filled for a part of the 2024/2025 financial year will need to be budgeted for the full 12 months of the 2025/2026 financial year.
- R4,029m budget allocation for Leave Provision will be recognized at the end of the financial year.
- Despite the negative variance, the overtime category reflects 66% of the adjusted allocation utilized by the 10th of March. Overtime costs for March will be catered for in the April salary payment. Business units will need to closely monitor their overtime requests to ensure they do not exceed their allocated budgets.
- Also, in terms of the standby allowances, the budget was increased by R5,458m to R16,679m with 72% of the budget being spent by the end of the March.
- For a detailed analysis of Employee Related Expenditure refer to section 2.5 Councillor Allowances and employee benefits of the report.

Remuneration of Councillors

- Reflects a negative variance of R3,549m. The budget was reduced by approximately R6m during the Adjustment budget process and the variance should be reduced by year end.

Bulk purchases

- Reflects under-expenditure of R24,378m with the payment for March still to be processed on the financial system. The Eskom invoice for March is R110,415m. If the invoice is considered, the variance results in over expenditure of approximately R86,037m. Council to note that in the four prior financial years, the Bulk Purchases expenditure had exceeded the budget and resulted in unauthorised expenditure, which led Council to approve additional adjustment budget request of R211m in the current financial year.
- Cumulative energy loss as at 31st March 2025 was R292,235,918 at 146,746,379 kwh with total losses of 26.94% on electricity purchases. The cumulative energy loss at the end of March in the 2023/24 financial year was R237,321,676 at 132,195,955 kwh with total losses of 25,24% electricity purchases. The industry norm for energy losses is 6-12%. The municipal energy loss is therefore more than twice the industry norm and significantly threatens the financial viability of the council as such losses are not sustainable.
- This impact which was previously highlighted in the previous Section 52 reports, continues in the Third Quarter billing whereby we are paying more for the Bulk purchases alone (Excluding Staff Costs, Repairs, Contracted Services, Capital, etc) compared to the total value of Electricity Sales. The total electricity billing is R928,471m whilst the Eskom Bulk invoices total R957,198m.

Inventory Consumed

- Reflects R2,567m under expenditure from the year-to-date budget. This expenditure category consists of inventory items such as material for maintenance of electrical and road infrastructure, protective clothing, cleaning materials. The budget was increased by approximately R1,223m during the February Adjusted Budget to mainly cater for protective clothing including the uniform for office-based staff, thus the variance is expected to reduce as the year progresses.

Debt Impairment

- No provisions for debt impairment were recorded in the financial system. However, Council to note that these non-cash provisions are required in terms of GRAP, with impairment testing conducted quarterly but only processed at year-end during the preparation of the AFS. The provision at the end of Quarter 3 is R9,630,531.67.

Depreciation

- Depreciation and asset impairment reflects a negative variance of R28,264m. The variance is as a result of delays in completion of projects which has influenced the capitalization and subsequent depreciation of these assets.
- The other contributing factor to this variance is related to asset impairment. A budget of R11,5m has been provided for asset impairment and the journal will be processed at year end in accordance with GRAP.

Interest (Finance Charges)

- Finance charges reflect a negative variance of R3,739m as at the end of March 2025. The interest together with redemption payments are made at specific times during the financial year. The Finance Charges budget was compiled considering the existing loans. The Municipality currently has R156,288m existing loans with the DBSA.
- Repayments are made quarterly with the September and March instalments incurring a nominal interest payment, while a significant increase in interest expense is noted for December and the June repayment. The R3,739m variance therefore represents a timing difference that will be eliminated as the year progresses.

Irrecoverable Debts Written Off

- Council has approved a Debtors Incentive Scheme that is effective from 1st July 2024 to 31st May 2025. Write-Offs have been processed once the debtor's outstanding capital amount has been settled in accordance with the Incentive scheme. R2,297m has been written off Third Quarter.

Contracted services

- Reflects R37,707m underspending, however various contractual expenditure for the month of March is still to be processed on the financial system. The spending under this expenditure category is R273,106m as reflected in the table below.

Consultants and Professional Services

- **Business and Advisory** - The following line items reflect minimal to no expenditure at the end of the Third Quarter: -

- R4m budget for Municipal Data Cleansing Project with no expenditure to date. The project has been awarded, and an inception meeting was held in December 2024. This project is being co-ordinated by the Director: Special Projects.
- R3,575m budget for the Valuation Roll with expenditure of R385k. The budget is to cater for the new general valuation that comes into effect in July 2026. The project has been awarded by TAC on the 23rd of March.
- R1m for Area Based Studies, the project is under the custodianship of the Director Special Projects who has appointed a consultant from the current panel to conduct a feasibility study for a new vehicle testing grounds.

Contractors

By the third quarter, R99,123m of the R153,761m has been spent. Orders/Pending payments to the value of R9,281m have been posted on the financial system. The majority of the budget is allocated to the maintenance of buildings, vehicles, equipment, and unspecified assets, which include line clearing, pothole repairs, road grading, and stormwater maintenance.

- Contractor's costs for maintenance were increased by almost a combined R 25m during the Adjustment Budget for Civil and Electrical. R18,150m with pending payments of R5,191m of the adjusted budget of R29,450m allocated for road and stormwater maintenance contracts has been spent, following the awarding of the tender for a panel of contractors in the previous financial year. R2,498m of the R3,051m budget for Street Light Maintenance has been spent to date. The Electrical and Civil Business units are urged to closely monitor their maintenance contracts as the budget allocation must be sufficient for the remainder of the year.
- In order to ensure the highest value for money is achieved the following measures have been implemented by MANCO:
 - Maintenance plans have been requested by MANCO during the Draft 2025/26 'budget process.

- Business Units have been urged to consider utilising internal staff who are already employed and materials from stock if this will result in more repairs and maintenance being undertaken as opposed to outsourcing.
- The expenditure under Event Promoters relate to the Ballito Pro event which is held at the end of June running into July. Expenditure is therefore split over 2 financial years. No additional funding was catered for during the Adjustment budget.
- Safeguard and Security relate to the security costs of the Municipality which reflected higher expenditure than budgeted for by mid-year. The business unit requested an additional R11m during the Adjustment budget process, with the request being mainly to cater for ad hoc guarding and guarding of infrastructure under construction.

Outsourced Services

- ***Business and Advisory*** - The following line items which include '*Professional Staff*' reflect no expenditure at the end of the third quarter with the variance being due to timing of project implementation: -

Third Quarter Budget and Performance Assessment

- Certain projects are scheduled for specific periods throughout the year, affecting expenditure patterns. For example, the Infrastructure Assets Verification project, with a budget allocation of R1,5m will commence closer to year end.
- A budget of R2m has been allocated to the Electrical Business Unit for Asset Management implementation services. These services will help maximize the use of the existing On-Key Enterprise Asset Management System (EAMS) to ensure the effective management of EBU assets, aligning with industry best practices.
- R6,265m has been provided for the EDTEA funded Vuthela Project with expenditure of R390k. A pending payment of R2,588m is also reflected on the financial system.
- **Refuse Removal** - R98,726m is reflected as expenditure by the end of March with R96,215m related to Refuse Removal Services and R2,511m for Refuse Bags contract. The payment for March is yet to be processed on the financial system. The monthly billing is approximately R13m. Refuse removal services fall under the following votes:
 - Consultants, Indigent Support, Street Sweeping and Dump Charges as reflected in the table below.

Refuse Removal Services	Total Budget	Total Actual	Available Budget
Indigent Support South	26,185,623	18,568,495	7,617,128
Indigent Support South	18,619,878	11,002,750	7,617,128

	146,692,989	98,726,009	47,966,980

- Also, the number of non-billed households being serviced have increased twice since the refuse service has been extended. These households, which are receiving once a week collection, currently total 36 103 in terms of the invoices received by the service provider. Of this total, the number of Indigent households are still to be verified and confirmed by the Refuse Steering Committee of the Municipality. Total indigent households serviced for the Northern and Southern section are 36 863. Comparatively the total amount of households billed for the Northern and Southern Sections are 13857.

Transfers and subsidies

- Negative variance of R9,080m reflected which related to the R10m budget allocation under DOHS Construction expenditure. The allocation has since been reduced by R8m during the Adjustment budget and the variance in this expenditure category should be reduced by year end. Expenditure of R227k has been catered for which relates to planning and admin fees.
- Also, the timing of various programs, which occur at specific periods throughout the year, influences expenditure patterns. Examples of such programs include 16 days of activism and various school programmes. The Disaster relief budget was catered for this financial year with expenditure of R39k of a budget allocation of R1,5m.

Loss on Disposal of Assets

- Reflects a negative variance of R6,188m. Losses on Disposal of Assets relate to the sale, transfer or de-recognition of municipal assets which is a non-cash entry required in terms of compliance GRAP reporting.
- Disposal journals are done at year end during the compilation of the Annual Financial Statements.

Other Losses

- Reflects a negative variance of R12,314m. Other Losses relate to actuarial assessments on post-retirement long service and medical liabilities which are non-cash entries required in terms of compliance GRAP reporting.
- Journals are done at year end during the compilation of the Annual Financial Statements. The budget was increased by R6,873m with calculations being based on the 2023/24 financial year outcomes.

- **Achievement and Awards** - relate to Retirement Recognition awards - expenditure incurs as and when necessary.
- **Advertising, Publicity and Marketing** - relates to Advertising cost of the Municipality and all Municipal Corporate Activities. Majority of the projects relate to Awareness Campaigns, Publicity, Events, and Community Engagements. The variance is due to the timing of programmes which affect expenditure patterns.

- **Commission** - relates to the commission paid for the management of the prepaid electricity vending system. The current contract will end during this financial year and the revenue department together with the electrical business unit have commenced the SCM processes for the new contract to come into effect.
- **Communication** - relates to payments for 3G, Telephone calls and Postage costs of the Municipality. R1,746m of R2,1m budget has been spent on 3G with R948k of R1,4m budget being spent on telephone calls. Approximately R194k monthly payment is currently being made on 3G usage. The budget was adjusted by R600k to cater for the monthly billing.
- **Contribution to Provisions** - will be accounted for during the finalisation of the AFS.
- **Insurance Underwriting** - the budget was adjusted by R4,194m has the payments made by mid-year had exceeded majority of the premiums catered for under each business unit. The increase related to the growth in municipal fleet attracting higher premiums.
- **Management Fees** - expenditure relates to payments towards the Urban Improvement Precinct in terms of additional services provided in Special Rating Areas. There is an identical revenue budget allocation under Property Rates which at present reflects R10,422m revenue collection.
- **Workmen's Compensation** - expenditure will be accounted for at year end.

Municipal Costing

In accordance with mSCOA Regulations and relevant Circulars issued by National Treasury, municipalities are required to implement costing when budgeting and transacting during the financial year. The purpose of costing is to measure the services undertaken by the organisation for proper recording of repairs and maintenance and determining cost-reflective tariffs, particularly rates that allow the municipality to completely recover the costs of providing a service to the community.

Despite this system being functional, it is to be noted with concern that the utilization of the costing segment has significantly decreased. The Salaries section currently updates labour costs per hour on an annual basis on the Munsoft financial system. However, despite numerous memos and email requests made to the Fleet Management section for vehicle costing tariffs in both the current and past financial years, the vehicle costing tariffs have not been updated on the financial system since the 2016/17 financial year.

Only the following limited subcomponents within costing are actively being used:

1. Internal billing method which is system generated every month to account for electricity on Council Buildings, and
2. The only costing journals which are captured onto the financial system are EPJ's (Electrical Private Jobbing) which relates to new services connection.

Services delivery department such as Civil (e.g. Pothole repairs), Community services (Refuse, Parks & gardens) and Electrical should be submitting costing journals (timesheets/ job cards) to IT department for capturing. The following summarises the risks of not utilizing costing segment:

- No transparency around tariff determination and cost recovery.
- Loss of revenue and Incorrect billings being raised by revenue (Sundry Debtors) in respect of Electrical Private Jobbing.
- Unable to estimate the true value R&M undertaken by the municipality. We currently only measure outsourced repairs and maintenance instead of the full R&M undertaken. Estimations are that this will increase our R&M % from 3% to 7%.
- A widening gap between full cost and current expenditure will result in operational losses for Business Units and huge tariff increases for consumers when rectified.

CAPITAL BUDGET

Reference is made to Part One - (C Schedule Table C5c) for a detailed breakdown of amounts pertaining to the capital budget, per department.

The municipality has the following eight business units for the purposes of budget reporting:

- Office of the Municipal Manager
- Corporate Services
- Finance
- Economic Development and Planning
- Community Services & Public Amenities
- Community Safety
- Civil Engineering
- Electrical Engineering

After an extensive consultation processes, Council has approved R328,573m as a capital budget in the current financial year with the majority of the funding being allocated towards electrical upgrades, road infrastructure projects, community recreational facilities and special projects under the Municipal Managers office. The unspent disaster grants were then catered for during the February Adjustment Budget process. The Adjustment Capital Budget is R624,287m.

The capital expenditure report is based on Table C5 which is a format required by National Treasury and it is categorised by municipal vote and standard classification. The Capital Budget includes the following funding sources:

- Government Grants
- Internally generated funds

CAPITAL BUDGET FUNDING SUMMARY

Grant Funding

The capital grant and public contribution allocation for the financial year is R 79,300m, consisting of:

- Municipal Infrastructure Grant (MIG) - capital allocation of R50,019m (excl. vat) with 39% expenditure being reflected. R19,517m has been spent to date. On the 26th of March, the Municipality received Government Gazette no. 52381, in which the MIG allocation was reduced by R8,924m. In terms of the gazette, *“The stopping and re-allocation of conditional grants is done in terms of sections 18 and 19 of the 2024 DoRA, as amended, against municipalities that reported significant underperformance as at mid-year i.e., 31 December 2024.”* The reduced allocation will be catered for through a Special Adjustment Budget by the end of April.
- Integrated National Electrification Programme (INEP) - R10,155m (excl. vat) for the Housing Electrification Project and R5,952m (excl. vat) for the New Lavopiere Substation. Expenditure of R10,155m (excl. vat) is reflected for the Electrification project.
- R 3,155m EDTEA Funded Vuthela Project for Metering Kiosks under the Electrical Business Unit. The implementation of the project was delayed in the previous financial year and considered for roll-over. No expenditure to date.
- Housing Accreditation - R 12k for the procurement of Furniture, Tools, and Equipment for the Housing section. R10,5k expenditure reflected to date.
- Municipal Disaster Response Grant - R338,048m of the R1,2bn disaster response grant has been catered for during the February adjustment budget. With the final project listing not provided to the Finance department, R244,028m total budget allocations on projects reflecting current year expenditure through council resolution C40, were provided for with a consolidated allocation of R49,927m. These projects were to be addressed through a virement process once the disaster project listing had been finalised and balanced. To date, no virement request has been submitted for processing. A final listing is awaited, to be catered for during the Special Adjustment budget. To date R162,603m has been spent.

Council is to further note, that although full budget allocations as requested by the business unit were provided for 138 projects reflecting expenditure, the business unit have since over-spent on 7 projects by R684k and reflected expenditure of R1,808m on projects with no budget allocations. A further R6,711m which relates to the Upgrade of Mnyundwini Culvert Bridge, with a budget allocation of R24,124m has been incorrectly posted to the Rehab of Myundwini Road which has no budget allocation. The various issues raised above need to be urgently addressed by the business unit for a final budget allocation to be catered for the disaster projects during the Special Adjustment Budget.

- Municipal Disaster Recovery Grant - R9,908m of the 2019 Disaster Recovery grant and R10,410m of the R109m Disaster Recovery grant will be considered for rollover as well through the adjustment budget as discussed above. R6,859m has been on the 2019 disaster grant with R4,191m being spent on the unspent R109m disaster grant.
- EDTEA Prize Money - R276k was unspent in the previous financial year. The roll-over has been requested by the Community Services Business unit for the Construction of a Mini Park and Informal Trading Stalls. No expenditure reflected.
- EDTEA funding - R212,8k unspent funds for the Transformative Riverine Management programme - Mavivane River. A waste litter boom has been procured reflecting R108k expenditure.

Council Funding

- There is 35% under-spending relating to Council funded projects. Various projects reflected minimal, to no expenditure at the end of March.

EXPENDITURE PER STANDARD CLASSIFICATION

The table below provides a budget versus expenditure as per the standard classification Table C5 of the in-year reports. Based on this table, council spent R327,232m which includes R173,653m disaster funded grant expenditure. The Municipality reflected negative variance of 18% from the service delivery budget implementation plan.

CASH FLOW STATEMENT - SCHEDULE C7

In terms of MFMA Budget Circular 98, the following movement accounts should only be used for cash inflow and outflow transactions:

Item Assets:

- Collections: Collections received pertaining to a respective account (example is collection on receivables from non-exchange (property rates) and non-exchange (service charges electricity) transactions.
- Acquisitions: Purchases of assets and other expenditure.
- Disposal: Sale of non-current assets (example land).
- Earned: Interest earned on a bank account.

Item Liabilities:

- Receipts: Current year receipts on transfer and subsidies.
- Advances: Advances taken for the year, e.g., for borrowing.
- Repayments: Repayments for the year, e.g., for borrowing.
- Payments: Payments made; example defined benefits.
- Withdrawals: Payments made, examples are for bulk purchases for electricity and bulk purchases water.

The Municipality has currently not fully implemented transactions on the Item Liabilities leg as listed above, with quarterly journals being processed onto the item liability legs, resulting in an overstatement on the closing cash balance of R2,135bn. The actual cash closing balance inclusive of Investments at the end of March is R 1,079bn.

If a municipality is not transacting or reporting directly in or from their financial system, then the controls that are built into the system to prevent an unauthorised transaction or reduction in cash reserves will not be triggered, therefore it is imperative that the errors and misallocations be timeously identified and corrected by the Director Expenditure.

KZN292 KwaDukuza - Supporting Table SC1 Material variance explanations - M09 - March

Ref	Description	Variance	Reasons for material deviations	Remedial or corrective steps/remarks
	R thousands			
1	Revenue			At the last date of every month due to the number of meters that need to be read and, more importantly, the bulk meters are only read either on the last day of a month or the first day of a new month.
	Service charges - electricity revenue	117,326	The billing for March 2025 will go through on the 7th of April 2025 hence the variance	
	Interest Earned - external investments	15,373	Interest being processed on the beginning of March 2025 and Interest for disaster grant was not budgeted for and 4m was receipted for disaster grant interest.	
	Transfers and subsidie	65,552	The variance is due to the timing of grant receipts.	
2	Expenditure By Type			
	Employee related costs	12,264	The variance is attributable to timing of service related benefit payments.	
	Debt impairment	20,886	Journals are done at year end. This is a non-cash provision that is normally calculated at the year end.	
	Depreciation & asset impairment	28,264	Included in the budget for depreciation is a budget for asset impairment which is calculated at year end.	
	Bulk purchases	24,378	Timing of the payments to eskom.

Consumer debtors amounted to R410,051,617.25 as at 31 March 2025. This indicates an increase of ten (10) percent since 30 June 2024. The majority of the debt under this category is over 150 days.

The effects of a slow recovering economy, increasing costs of basic services, living expenses and high unemployment rates amongst others, have had a lasting effect which have contributed to the slow recovery of old debt. With the current economic uncertainty and increases in living expenses that the country is facing, it is unlikely for the consumer debt to see the significant decrease within the next financial year.

For the financial year 2024/25, various revenue enhancement initiatives are carried out such as inspection of faulty meters, back-billings for electricity, refuse & consumer deposit review and implementation of the rating code for unauthorized use, resulting in an increase in overall revenue which accounts for the increase in overall debt. The current collection rate as at 31 March 2025 is 97,69%. The collection rate for the 2023/24 financial year was 98%.

Sundry Debtors

Sundry Debtors amounts to R43,683,406 with the majority in the 150 days and over category.

Sundry debtors are continuously increasing due to poor collection under rental income generated in areas, such as Rocky Park flats, Glen hills, hostels etc. which debt is currently sitting at R5,480m at the end of March 2025. Therefore, rentals are the biggest contributor in terms of poor collection under this category. There is an urgent need to do data cleansing which will ensure that all tenants have valid lease agreements, there is caretaker responsible for the administration of the building and ensure that tenants without lease agreements are either issued with new lease agreements or they evacuate the building. This process will ultimately result in accurate monthly billing which is done by FBU.

The creditors aging reflects a total of R 16,528m outstanding payments at the end March as per the financial system. The table is however understated due to the accrual payments in the month of April 2025 for payments incurred in March 2025. Upon analysis, the total creditors outstanding as at 31st March 2025 amounts to R143,718m to date. All payments are inclusive of vat. The breakdown is as follows:

- R16,528m as per the ageing creditors, made up of trade creditors and other creditors as per above total outstanding, 65% relates to creditor payments that were captured in March and therefore are due within 30 days.
- R16,741m for accrual invoices inclusive of capital project and operational, where invoices were approved for work done in March but submitted to Finance by end of April.
- R126,977m for March Eskom bill where the invoice is only sent to the municipality on the 3rd of the following month. The invoice will be processed before end of April 2025.

The municipality makes an extra effort to ensure that creditors are paid within 30 days as per MFMA, there are however instances where certain payments may be delayed due to queries, whereas only when queries are resolved payments will be processed.

The table above provides an analysis of the investments held by KwaDukuza Municipality.

- As it can be noted by the above, we do not have any entities and hence no investments to be recognised on their behalf.
- As at 31st March 2025, the municipality had R529,792m Investment portfolio. A significant portion of this is ring fenced for various statutory and constructive obligations and may therefore not be considered unencumbered cash.
- R 88,173m in the table above relates to investments that are over 3 months.
- KwaDukuza Municipality's reserves are approximately 1,41month cash availability as at the end of March 2025 which is a decrease compared to the June 2024 closing coverage of 2 months cash availability. Close monitoring of the collections during the financial year is necessary to ensure that we remain financially viable.
- As a result of the deficit Adjustments Budget approved by Council in February reserves will be used to fund operating expenditure. Council may therefore anticipate a reduction of the cash coverage rate.
- This is reported to Finance and Local Public Administration Portfolio on a monthly basis for oversight.

2.4 ALLOCATION AND GRANT RECEIPTS AND EXPENDITURE

The table below reflects grant allocations of R 364,498m for the 2024/25 financial year which is inclusive of Equitable Share funding. R8,924m MIG allocation has been withheld by the transferring agent due to poor performance on expenditure of the grant. A revised MIG implementation plan has been received by the Civil Engineering business unit and will be catered for in a special adjustment budget. R346,440m has been received by the Municipality by the third quarter. R2,554m is still to be received on the Housing Accreditation grant, however Council to note that in previous financial years, the full allocation of the grant has not been received by the Municipality.

2.6 MATERIAL VARIANCES TO SERVICE DELIVERY AND BUDGET IMPLEMENTATION PLAN

KZN292 KwaDukuza - Supporting Table SC1 Material variance explanations - M09 - March

Ref	Description	Variance	Reasons for material deviations	Remedial or corrective steps/remarks
	R thousands			
1	<u>Revenue</u>			
	Service charges - electricity revenue	117,326	The billing for March 2025 will go through on the 7th of April 2025 hence the variance	At the last date of every month due to the number of meters that need to be read and, more importantly, the bulk meters are only read either on the last day of a month or the first day of a new month.
	Interest Earned - external investments	15,373	Interest being processed on the beginning of March 2025 and interest for disaster grant was not budgeted for and 4m was received for disaster grant interest.	
	Transfers and subsidie	65,852	The variance is due to the timing of grant receipts.	
2	<u>Expenditure By Type</u>			
	Employee related costs	12,264	The variance is attributable to timing of service related benefit payments.	
	Debt impairment	20,886	Journals are done at year end. This is a non-cash provision that is normally calculated at the year end.	
	Depreciation & asset impairment	20,264	Included in the budget for depreciation is a budget for asset impairment which is calculated at year end.	
	Bulk purchases	24,378	Timing of the payments to eskom.	
	Contracted services	37,707	Timing of payments.	
3	<u>Capital Expenditure</u>			
	Finance and Administration	4,511	R 5,5m spent on acquiring various assets and R 583k committed.	
	Community and public safety	1,944	R 3,6m spent as at end March 2025 on various projects and R 214k committed.	
	Energy Sources	16,419	R 67,3m spent on various projects as at end of March 2025.	
	Housing	1,618	R 2,093m spent on acquiring office furniture & Housing retaining walls, with R 90k seating as pending.	
	Road Transport	20,028	R 197,649m spent as at end of March 2025 on various projects, the major reason for the positive variance is due to the payments made on the disaster projects that are not budgeted for.	
	Sport and Recreation	8,211	R 5,1m spent with R 218k on various projects as at the end of March 2025.	
	Executive & Council	7,708	R 13,5m spent as at the end March 2025 on KwaDukuza & Ballito taxi ranks.	
4	<u>Financial Position</u>			
	Total Assets	5,674,957	The Municipal PPE is R 3,933,943 and Cash & cash equivalents of R 1,078,928	
	Total current liabilities	653,309	The Municipality reflects R 462,214 for Trade & Other Payables	
	Total non current liabilities	299,381	Borrowings of R 141,920 reflected	
	Total Equity	4,722,267	R 27m reserves and R 4,4k Accumulated surplus.	
5	<u>Cash Flow</u>			
	Cash flow from Operating Activities	1,071,998	The municipality needs to review the manner in which processes payments onto the financial system. Not all payments are being reflected at present distorting the closing balance on the cash&cash equivalents.	
	Cash flow from Investing Activities	372,480	Capital Asset payments of R 15,199m for the month of March 2025.

PROVINCIAL TREASURY CIRCULAR PT/MF 09 OF 2024/25
2025/26 MEDIUM TERM REVENUE AND EXPENDITURE FRAMEWORK (MTREF) BUDGET PREPARATION

The objectives of this circular are:

- A. To share with municipalities, the provincial allocations that have been gazetted for the 2025/26 MTREF period;
- B. To highlight a change in the version of the municipal Standard Chart of Accounts (mSCOA) classification framework to be used by municipalities in the preparation of their 2025/26 MTREF Budgets;
- C. To remind municipalities of the criteria for the release of the Equitable share; and
- D. To remind municipalities of the submission requirements of the 2025/26 MTREF Budget Process.

This Circular should be read together with National Municipal Finance Management Act, Act No. 56 of 2003 (MFMA) Circulars No. 129 and 130, as well as Provincial Treasury Circular PT/MF 07 OF 2024/25 on the 2025/26 MTREF Budget.

A. Provincial allocations to municipalities

The 2025/26 Budget for the KZN Province was tabled in the Provincial Legislature on 25 March 2025. Provincial Gazette No. 2794 confirming the provincial allocations to municipalities has been published, and attached is the extract of the gazette (Annexure A - Pages 113 to 132) for use by municipalities in the preparation of their 2025/26 MTREF Budgets **(please note that these figures have already been shared with municipalities by your designated Provincial Treasury Municipal Budget Analyst for inclusion in your 2025/26 (Draft) Budget to be tabled to Council).**

KWAZULU-NATAL PROVINCE

TREASURY
REPUBLIC OF SOUTH AFRICA

B. Budget Preparation Process

MFMA Circular No. 130 indicated that *mSCOA version 6.9 will go live from 24 March 2025, whereafter municipalities will be able to upload their Tabled Budget (TABB) and Tabled Project Files (PRTA) data strings for the 2025/26 MTREF on the National Treasury GoMuni Portal.*

After going live on version 6.9 of the chart, all the reports available on the Local Government and Reporting System (LGDRS) will be aligned to mSCOA chart version 6.9. This includes the format of the MFMA Section 71 report for Q3 and Q4 of the 2024/25 financial year and the 2024/25 Adjustments Budget.

MFMA Circular No. 130 further advised that the Municipal Budget and Reporting Regulations (MBRR) Schedules (A to F) and non-financial data string (A1S) was also aligned to version 6.9 of the chart. A **protected** version of the MBRR Schedules for version 6.9 of the chart and Schedule A1 is available on the MFMA Webpage on the link below:

<http://mfma.treasury.gov.za/RegulationsandGazettes/Municipal%20Budget%20and%20Reporting%20Regulations/Pages/default.aspx>

The reports LGDRS are populated from financial and non-financial data strings and both strings are required for the data to pull through correctly on the reports available on the LGDRS. Municipalities must use the linkages on the National Treasury GoMuni Portal referred to above and not the formulas in the regulated MBRR Schedules when generating their Schedule A from the financial system.

In terms of the mSCOA Regulations, municipalities must generate the regulated MBRR schedules to be tabled and adopted by Council directly from their integrated financial system solutions and not import or capture it on their system solutions at a later stage. This is necessary to ensure that there is 'one version of the truth', namely the data in the integrated financial system solution is the same as the report tabled and adopted by Council and the information submitted to National Treasury and other stakeholders.

C. Criteria for release of Equitable share

Municipalities are reminded that as per MFMA Circular No. 130:

- The criteria for the release of the Equitable share that was covered in MFMA Circular No. 122 remains relevant and are still applicable for the release of Equitable share instalments in the 2025/26 financial year; and
- Failure to comply with the criteria will result in National Treasury invoking Section 38 of the MFMA which empowers National Treasury to withhold a municipality's Equitable share if the municipality commits a serious or persistent breach of the measures established in terms of Section 216(2) of the Constitution which includes reporting obligations set out in the MFMA and National Treasury requests for information in terms of Section 74 of the MFMA.

D. Budget Submission Process

Municipalities are reminded of the submission details for the 2025/26 MTREF Budgets which were included in MFMA Circular No. 126 and Provincial Treasury Circular No. PT/MF 07 of 2024/25.

KWAZULU-NATAL PROVINCE

1. Purpose of Circular

The purpose of this Circular is to guide municipalities on the implementation of section 67 in the Municipal Finance Management Act 56 of 2003 (MFMA) relating to instances when municipalities transfer funds to organisations or bodies outside of government, i.e. non-governmental organisations (NGOs), which also includes nonprofit organisation (NPOs). This Circular includes an Annexure, which outlines examples of instances where municipalities must follow procurement processes instead of making a transfer payment as contemplated in terms of section 67 of the MFMA. Note that the provisions of section 67 of the MFMA are not applicable to municipal entities.

2. Background

Section 67 of the MFMA outlines a process which must be followed before transferring funds to NGOs in instances where such transfers are not for the actual supply of goods or services. **Where a municipality procures goods and services, even from an NGO, it must comply with the procurement processes as required in terms of section 217 of the Constitution, read with chapter 11 of the MFMA, the Municipal Supply Chain Management (SCM) Regulations and other applicable procurement prescripts, before appointing an NGO to provide goods and services to a municipality.** Section 67 of the MFMA should, therefore, not be used as a mechanism to bypass official public sector procurement legal prescripts as it only enables municipalities to make transfers to NGOs in instances other than through the normal course of providing municipal services.

A transfer within the context of section 67 of the MFMA refers to instances where a municipality does not buy any item or pay for goods or services, regardless of whether it is in furtherance of a municipal assigned or unassigned function. Section 67 of the MFMA provides a mechanism for municipalities to make transfers to organisations or bodies outside of government, such as nonprofit organisations (which include non-governmental organisations and community-based organisations), to enable them to support projects and programmes of these organisations.

Municipalities should prioritise budgeting for sufficient service delivery municipal mandates over budgeting for unassigned functions. Irrespective of whether a municipality is performing an assigned or unassigned function, section 217 of the Constitution will apply to any procurement of goods or services in relation to the performance of the assigned or unassigned function. Therefore, section 67 of the MFMA cannot be used to procure goods and services from NGOs for unassigned functions.

In budgeting for section 67 transfers, municipalities must always take cognisance of sections 62(1)(a) of the MFMA, which stipulates that the accounting officer of a municipality is responsible for managing the financial administration of a municipality and must, for this purpose take all reasonable steps to ensure that the resources of the municipality are used effectively, efficiently and economically. Service delivery must always be prioritised.

3. Council Policy

Municipalities should develop and approve a policy to transfer funds to NGOs in terms of section 67 of the MFMA to ensure transparency and accountability. This policy must govern how a municipality will provide financial assistance to NGOs. Below are some key elements that should be addressed in a section 67 transfer policy:

- **Purpose and objectives:** Clearly state the purpose, desired outcomes, and impacts that the funding aims to achieve.

- **Eligibility criteria:** Specify the eligibility requirements for potential recipients. These criteria may include jurisdiction, project alignment with funding priorities, and compliance with legal and financial standards.
- **Application process:** Outline the process for NGOs to apply for transfer funding. This should include details on the application form, submission deadlines, and required documentation associated with the application.
- **Selection criteria:** Describe the criteria and evaluation process used to assess transfer applications. Explain how applications will be scored and selected for transfer funding.
- **Funding amounts and duration:** Specify the minimum and maximum transfer amounts that can be awarded and the duration of funding support. Address any conditions or milestones that may affect funding levels.
- **Reporting and accountability:** Define the reporting requirements for transfer funding recipients. Explain how recipients will be held accountable for the spending of transferred funds. Outline the responsibilities of the municipality and the transfer funding recipients in ensuring compliance with the funding terms and conditions. Describe the monitoring processes to ensure funds are used appropriately.
- **Payment and disbursement:** Detail the method of disbursement. Specify how funds can be used. This may include budget categories, allowable expenses, and limitations on administrative costs.
- **Amendment and termination:** Address the circumstances under which a transfer agreement may be amended or terminated and the procedures for doing so.
- **Appeals and grievance procedures:** Establish a process for addressing disputes or grievances related to funding decisions or implementation, which should also include reference to a public process as part of the annual budget approval process.
- **Transparency and public information:** Discuss the level of transparency the municipality will maintain regarding funding decisions, recipients, and outcomes. Clarify how information about the transfer program will be communicated to potential applicants, stakeholders, and the public.
- **Legal and regulatory compliance:** Ensure that the policy aligns with all relevant laws, regulations, and guidelines governing grant-making activities.
- **Evaluation and review:** Specify how the section 67 policy will be periodically reviewed and updated to reflect changing needs, priorities, and best practices.
- **Conflict of interest:** Address conflict of interest guidelines for both the municipality's staff and transfer review committee members.

The municipality's section 67 transfer policy should align with its integrated development plan and legal requirements and be regularly reviewed and updated to meet evolving needs.

4. **Meaning of “otherwise, than in Compliance with a Commercial or Other Business Transaction”**

Section 67 of the MFMA makes reference to “otherwise than in compliance with a commercial or other business transaction”. These terms have not been defined in the MFMA and should, therefore, be interpreted based on the ordinary meanings of the words within the context of the scope and purpose of section 67 of the MFMA, as well as the overarching principles in the MFMA. The word “commerce” in general, is defined as the exchange of goods and services between two or more persons and “commercial” generally means one is engaged in commerce. The general meaning of “business transaction” is the process of executing a transaction where goods and services are exchanged between two or more parties. Therefore,

this section was never meant to be applied to procuring goods and services for the municipality's own benefit or even in the case where it is not for the municipality's own benefit.

In *Agribee Beef Fund (Pty) Ltd and Another v Eastern Cape Development Agency and Another* [2023] ZACC 6, the Court confirmed that section 217(1) of the Constitution applies to all public procurement, even if the organ of state is not the direct beneficiary of the goods or services. In line with the principle that section 217(1) is "not confined to instances of procurement of goods and services by an organ of state for its own benefit or use," any arrangement in which an organ of state procures goods and services, must be done in terms of section 217(1) of the Constitution.

5. Irregular Expenditure due to Incorrect Application of Section 67 of the MFMA

Chapter 11 of the MFMA, read together with Municipal Supply Chain Management Regulations apply to the procurement of goods and services. In the context of section 67 of the MFMA, where a municipality receives or is due to receive goods or services from an NGO, the payment for those goods or services cannot be made in terms of section 67 of the MFMA. For a transfer to be in line with section 67 of the MFMA, it must be truly unrequited for the municipality in form and in substance - i.e. the municipality should not receive or have not received any goods and services in exchange for the transfer to the NGO.

Therefore, municipalities must not circumvent the procurement processes by procuring goods and services from NGOs under the guise that section 67 of the MFMA is applicable. Where the municipality procures goods and services in terms of section 67 of the MFMA, instead of the applicable procurement processes, the expenditure incurred will be classified as irregular as defined in the MFMA. If a municipality pays an NGO without following procurement processes, this irregular expenditure must be referred to the Municipal Public Accounts Committee (MPAC) for investigation in terms of section 32(2)(b) of the MFMA. MPAC's recommendations must then be tabled at the next available council meeting. Municipalities must, therefore, identify and address transactions where section 67 was incorrectly applied, as required in section 32 of the MFMA.

6. Financial Misconduct, Financial Offence and Other Offences

The irregular expenditure incurred must also be referred to the municipality's disciplinary board for a financial misconduct investigation in line with section 171 of the MFMA, read together with the Municipal Regulations on Financial Misconduct Procedures and Criminal Proceedings, 2014. If there is suspected fraud or the conduct of the officials also amounts to a financial offence in terms of section 173 of the MFMA, then the matter must also be reported to the South African Police Service for investigation. Municipalities must also take cognisance of section 34 of the Prevention and Combating of Corrupt Activities Act 12 of 2004, where there is suspicion of corruption involving an amount of more than R100,000.

7. The Requirement to Provide Audited Financial Statements

Section 67(1)(a)(iv) of the MFMA requires an NGO that will be receiving a transfer in terms of section 67 to submit its audited financial statements to the municipality. Given the various legal forms an NGO can take, not all NGOs are compelled to have audited financial statements. If the organisation is a nonprofit organisation, then the municipality may, subject to compliance with section 67(4) of the MFMA, enter into an agreement with the relevant organisation requiring that organisation to submit financial statements that comply with the requirements of the Nonprofit Organisations Act 71 of 1997 (NPO Act) instead of submitting audited financial statements as required by section 67(1)(a)(iv) of the MFMA. Note that the possible exemption from submitting audited financial statements is limited to NGOs serving the poor, as contemplated in and subject to section 67(4) of the MFMA.

8. General Budgeting Requirements of Section 67 Transfers

Section 67 of the MFMA read with section 17(3)(j)(iv) of the MFMA, requiring that an annual budget tabled under section 16(2) of the MFMA includes details of proposed allocations to NGOs. Consequently, the municipal council approves NGO transfers as part of the budget, contingent on affordability. The accounting officer, empowered by section 67 of the MFMA, implements these transfers according to the approved budget. Municipalities must ensure that the proposed NGO transfers are clearly indicated in the budget submission to the council, including names of NGOs intended to receive funds.

Municipalities should start the section 67 process by July of the preceding financial year, ensuring provisional NGO allocations are disclosed during consultations on the draft budget. The section 67 policy must state that NGO allocations are provisional and subject to public participation. If objections arise, NGOs must be given a chance to respond to objections, but if the municipality deems their response inadequate, no transfer should be made to an NGO.

9. NGOs Serving the Poor/ Indigent

NGOs serving the poor/ indigent are exempted from compliance with section 67(1)(a) of the MFMA as stated in section 67(4) of the MFMA, subject to the following:

- If the transfer does not exceed a prescribed limit;
- If the accounting officer takes all reasonable steps to ensure that the targeted beneficiaries receive the benefit of the transferred funds; and
- If the accounting officer certifies to the Auditor-General that compliance by that NGO with subsection (1)(a) is uneconomical or unreasonable.

Although section 67(4) of the MFMA might appear to fully exempt municipalities from section 67(1)(a), this exemption is limited and applies only to specific NGO agreement requirements. A funding agreement with the NGO remains necessary, and if compliance is relaxed, the accounting officer must certify in writing to the Auditor-General of South Africa (AGSA) why such compliance would be uneconomical or unreasonable. The certification contemplated in section 67(4) refers to at least a letter to the AGSA.

The minimum considerations that must be included in the AGSA certification are the following:

- The relevant factors behind the accounting officer's conclusion;
- Why compliance with section 67(1)(a) of the MFMA is deemed uneconomical or unreasonable; and
- The compensatory compliance measures the municipality will require from the NGO.

The accounting officer's conclusion must be justifiable, reasonable and fact-specific.

While section 67(4) does not prescribe a limit on the total transfer amount per year, municipalities must consider their budget constraints. Despite relaxed compliance requirements under section 67(1)(a), the accounting officer must ensure internal controls confirm that funds reach intended beneficiaries.

10. Section 67 Application Process Timeline

Transfers in terms of section 67 of the MFMA should be effected in terms of a budget-related policy, and should, therefore, follow a municipality's typical budget process. The following minimum steps are relevant to consider as part of a full-cycle section 67 transfer process.

Figure 1: Steps in a typical section 67 transfer full-cycle process:

11. Conclusion

The municipality's accounting officer must ensure that this Circular, including the Annexure to this Circular, are tabled in the next available Municipal Council meeting by submitting the Circular to the municipality's Speaker as an Annexure to a Council item. The contemplated Council item should explain the Circular and the impact of the Circular on the municipality's operations and policies. The Circular must also be brought to the attention of officials within the municipality, including the municipality's disciplinary board and the audit committee.

All clarification requests concerning this Circular should be emailed to mfma@treasury.gov.za.

Annexure: Examples of NGO payments that do not qualify as section 67 transfers

Annexure: Examples of NGO payments that do not qualify as section 67 transfers

The National Treasury has observed certain payments made to NGOs in terms of section 67 of the MFMA for goods and services provided to municipalities by the NGO. Below are examples of section 67 payments that should have been subjected to a proper supply chain management process.

The following examples are covered in this Annexure:

- Payments to NGOs providing local tourism promotion/ facilities for the accommodation, care and burial of animal services for which municipalities are responsible;
- Payments to NGOs in the furtherance of crime prevention, including initiatives to support the South African Police Service;
- Sponsorships to sports teams;
- Payments to NGOs/ NPOs operating special rating areas/ City Improvement Districts (CIDs);
- Ward projects; and
- Festivals/ events.

Payments to NGOs providing local tourism promotion/ facilities for the accommodation, care and burial of animal services for which municipalities are responsible

Municipalities have a constitutional mandate to promote local tourism (Schedule 4B) and to provide facilities for the accommodation, care, and burial of animals (Schedule 5B). The National Treasury has noted that some municipalities outsource these services to NGOs in terms of section 67 of the MFMA instead of following a procurement process as required by section 217 of the Constitution. Where tourism promotion and animal care functions are outsourced in this manner, any expenditure incurred should be disclosed as irregular expenditure if not procured through the prescribed supply chain management processes.

Payments to NGOs in the furtherance of crime prevention, including initiatives to support the South African Police Service

Where provincial and national functions have not been assigned to municipalities, such as crime prevention services, and a municipality partners with security firms to procure, maintain, and operate cameras under crime prevention objectives (mandated to the South African Police Services), these services must be procured through a procurement process. Paying any service provider in terms of section 67 of the MFMA without following the legally required procurement process—constitutes non-compliance and must be disclosed as irregular expenditure.

Sponsorships to sports teams or sports organisers

National Treasury has observed that municipalities sponsor sports teams in terms of section 67 of the MFMA for various reasons, including promoting local economic development and tourism. In some instances, irrespective of whether the sports team uses municipal facilities or its own, in order to receive a sponsorship, there will be an obligation to advertise and market the municipality. This is the procurement of a service, and it must follow the necessary procurement process.

When a municipality sponsors a sports team, the sports team or sports organiser's may provide complimentary tickets (including food and beverages) to councillors and officials, which constitutes fringe benefits not covered by the upper limits of councillor remuneration or salary agreements. This non-compliance triggers irregular expenditure and contravenes Regulation 10 of the Municipal Cost Containment Regulations, 2019.

Payments to NGOs/ NPOs operating special rating areas/ City Improvement Districts (CIDs)

Section 22 of the Municipal Property Rates Act 6 of 2004 allows municipalities to designate special rating areas and levy additional rates to fund extra services exceeding the standard level of service in a specific municipal area. Once a special rating area is established, the municipality collects additional rates from property owners in that area. It then pays the collected additional rate over to a nonprofit company (NPC) managing the area.

Payments to the NPC are not section 67 transfers as such payments are made in the normal course of business, e.g. paying a service provider for municipal waste collection or paying a security firm to provide security services for residents/organisations in the special rating area from the additional rates charged. As a result, the payment to the NPC is part of a standard business transaction, much like any other municipal service arrangement.

Ward projects

The basis of budgeting for ward projects lies in the municipality's Integrated Development Plan (IDP), with each ward identifying and prioritising local needs through its ward committee and councillor. These needs, such as youth camps, outreach programmes, and events for the elderly, are communicated to the municipal council as part of the budgeting process. Once the budget is approved, resources are allocated based on overall budgetary constraints, project priorities, and equitable distribution across the municipality.

Where the municipality appoints an NGO to implement ward projects, the required procurement processes must be followed to appoint the NGO. However, if the municipality donates funds to an organisation whose primary objective is to pursue social purposes, compliance with section 67 of the MFMA is required.

Festivals/ events

It has been observed that municipalities host annual events, such as festivals of lights and other cultural and heritage celebrations. Where a municipality appoints an NGO to execute the event, the NGO must be appointed via a procurement process before any payment is made to the NGO for the event services rendered. The municipality cannot simply pay the NGO via section 67 of the MFMA.

Where a municipality procures artists' or bands' services to perform at the festival or event, the artists or bands must be procured following a procurement process before any payment is made to the artist or band for the event services rendered. The municipality cannot simply pay the artist or band via section 67 of the MFMA.

CLOSE OUT REPORT: REVIEW OF THE MUNICIPAL ANNUAL FINANCIAL STATEMENTS.

The following report is based on the draft 2023/2024 AFS. This is part of the quality assurance processes undertaken by the municipality to ensure the credibility of the AFS. These processes have resulted in an unqualified audit opinion with no material changes to the AFS. Where relevant the underlying factors have been incorporated into the 2024/2025 AFS Project Plan.

3. Scope of the Project

The deliverables of the project are as follows:

- 3.1 Conduct a technical assessment of the draft pre-audited 2023/24 annual financial statements and related supporting working papers, utilizing the KZN PT AFS review checklist and NT GRAP disclosure checklist to ensure compliance with the GRAP and MFMA disclosure requirements;
- 3.2 High level review of the key registers, reconciliations, schedules and working papers e.g. fixed assets register, grants register, retentions schedule/register etc. to ensure compliance with the GRAP standards and MFMA disclosure requirements (Risk based approach);
- 3.3 Provide technical assistance in addressing financial statement review queries as required including queries from the Auditor-General on key financial statement matters having an impact on fair presentation; and
- 3.4 Provide skills transfer to the internal audit component and/or relevant finance officials of the municipality, by providing training on the process of reviewing the financial statements and working papers as well as managing the audit queries.

This report is aimed at summarising the achievement or otherwise of the deliverables in respect of the above initiative and identifying what needs to be done to sustain the improvements instituted.

- All feedback reports were prepared, and discrepancies were shared with the Municipality. The final set of AFS was submitted to us on the 31 August 2024. This was reviewed to confirm whether the key recommendations made to the Municipality have been affected correctly.
- **Work performed on Opening Balances and Comparatives and Current Balances**
 - A comparison between the prior year (2022/23 audited AFS) figures and comparative 2023/23 figures in the 2023/24 AFS was performed.
 - The closing balances in the 2022/23 AFS (Final Trial Balance) were compared to the respective opening balances in the 2023/24 Trial Balance.
 - A comparison between the 2023/24 financial system Trial Balance and Mapped Trial Balance used for the AFS preparation and the AFS was performed.
 - The closing balances as per 2023/24 Trial Balance were traced to the respective items in the Statement of Financial Performance, Statement of Financial Position and the Statement of Changes in Net Assets.
 - Performed the cast and cross cast of current and prior year figures on the AFS.
 - Reviewed the new mSCOA segments and allocations for 2023/24 financial year with reference to the latest National Treasury MFMA Circulars issued on the subject matter i.e. Circular 98.
- **Work performed on Statement of Comparison of Budget and Actual Amounts**
 - A review of the Statement of Comparison of Budget and Actual amounts was performed to ensure that disclosure of budget amounts in the AFS agreed to the approved budget and is supported by a council resolution.
 - The actual amounts in the Statement of Comparison of Budget and Actual amounts were traced to the respective amounts reflected in the face of the AFS.
 - An assessment of the reasonableness of variance explanations arising from the comparison of the budget and actual amounts was performed.
- **Work performed on Statement of Financial Performance**
 - A review of the Statement of Financial Performance was performed to ensure that all material amounts were accurately disclosed in the AFS, agreed with the respective notes to the AFS as well as supporting relevant schedules / registers / reconciliations and the Trial Balance / General Ledger and that variances identified during the review were investigated and corrected.
- **Work performed on Statement of Financial Position**
 - A review of the Statement of Financial Position was performed to ensure that all material amounts were accurately disclosed in the AFS, agreed with the respective notes to the AFS as well as relevant schedules / registers / reconciliations and the Trial Balance / General Ledger and that variances identified during the review were investigated and corrected.
- **Work performed on Cash Flow Statement**
 - The 2023/24 cash flow statement together with the comparative figures was tested for arithmetical accuracy.
 - A comparison between the closing balance as per the cash flow statement and the respective balance in the Statement of Financial Position as well as notes to the AFS was performed.
 - A comparison between the relevant line items in the cash flow statement under net cash flows from operating activities, net cash flows from investing activities and net cash flows from

The findings below were identified as part of the AFS review process and these were subsequently addressed prior to the final submission of AFS to the Auditor General.

Findings	Recommendations	Action Plan
Comparative Amounts		
Obtained the audited 2022/23 AFS and the 2023/24 Draft AFS and compared the 2022/23 figures to the comparative 2022/23 figures in the 2023/24 AFS. Differences were identified. A comparison of the AFS found that the prior year comparative amounts on the Statement of Financial Position and Statement of Financial Performance did not agree back to the final set of AFS as at 30 June 2023. Differences were reconciled back to the Note 41- Correction of error; however, the note was found to be incomplete as the narrations were not in sufficient detail as required by GRAP 3 as it omitted the nature of the prior period error.	It is recommended that the municipality review the annual financial statements to confirm the accuracy of the adjustments made to the comparative amounts and update the prior period error note according to general ledger adjustment made with detailed narrations. It is further recommended that the municipality comply with GRAP 3 paragraph 51, which states, in applying paragraph .44, an entity shall disclose the following: a. the nature of the prior period error; b. for each prior period presented, to the extent practicable, the amount of the correction for each financial statement line item affected; c. the amount of the correction at the beginning of the earliest prior period presented; and if retrospective restatement is impracticable for a particular prior period, the circumstances that led to the existence of that condition and a description of how and	Inclusion of prior period adjustments note checks for accuracy and completeness and alignment to GRAP 3 included in the AFS Plan. A tracker or schedule of accounts that have been restated from prior year must be maintained throughout the year and journal adjustments to opening balances and comparatives must be tracked with the nature and amount of the change as well as the effect.

Findings	Recommendations	Action Plan
This finding was subsequently resolved on the final AFS submitted on the 31 August 2024. The municipality updated the cash flow statement to include a more detailed presentation of receipts and payments in line with GRAP 2.	payments are disclosed. The municipality is required to reconsider its current disclosure of receipts and payments to accord with current presentation prescribed by GRAP 2. To enable the municipality and preparer of the cash flow statement to have reliable records of the various categories of receipts and payments, the municipality must continue to ensure that a monthly report is generated and categorised per nature and class of receipt and payment. To achieve the split of cash receipts, the municipality will also need to disclose items such as bad debts written-off split between exchange and non-exchange receivables as well as advance payments, which must also be split between exchange and non-exchange receivables. This will allow easier consolidation and allocation between material classes of receipts and payments at year end.	
A small variance was reported between the 2022/23 closing cash balance presented under the comparatives of the 2023/24 CFS received	Monthly reconciliations should be performed in respect of receipts and	N/A.

Donations – Note 3						
The SOFPERF included in the Draft AFS submitted for review did not include an amount for Donations as reported in the final 2022/23 Audited AFS. Donations <table><tr><td>As per 2022/23 AFS</td><td>R856 064</td></tr><tr><td>As per Draft 2023/24 AFS</td><td>RNIL</td></tr></table> This finding was subsequently resolved and the final AFS submitted on the 31 August 2024 included the correct amount as reported in prior year AFS. The description of the line item was revised from "<i>Donations</i>" to "<i>Transfers and subsidies – Capital (In-kind)</i>".	As per 2022/23 AFS	R856 064	As per Draft 2023/24 AFS	RNIL	The Municipality should ensure that all donations received during the year, i.e. In-kind and cash must be separately disclosed on the face of SOFPERF and a supporting note to enable the users of the financial information to understand the nature of the transaction. Debt impairment and write offs (Note 33)						
The SOFPERF included in the Draft AFS submitted for review reflected a consolidated amount in respect to the Provision for impairment and the actual write-offs of irrecoverable debtors. The line-item amount of R20 325 003 was disclosed as "<i>Debt impairment and write offs.</i>" The corresponding note 33 did not reflect the breakdown of the categories of debtors to which the debt write off and impairment relates. Note 33 did not include a split of the debt impairment and bad debt write off between Receivables from exchange transactions and Receivables from non-exchange transactions. This finding was subsequently resolved on the final AFS submitted on the 31 August 2024. The Note included the split between Receivables from exchange transactions and Receivables from non-exchange transactions.	The Debt impairment and write offs for the amount of R20 325 003 must be split into the various Trading service and Consumer services debtors. The split must be between Receivables from exchange and Receivables from non-exchange transactions. Irrecoverable debtors must also have a separate breakdown of the categories e.g. Electricity, Service charges, Property rates, Traffic fines. The Municipality must always ensure that all key disclosures in line with the relevant GRAP	ASB GRAP Disclosure Checklist should be utilised as part of AFS Preparation process and included in the AFS Plan				

Findings	Recommendations	Action Plan
as the amounts were not updated to reflect budget information for the period 30 June 2024. This finding was subsequently resolved on the final AFS submitted on the 31 August 2024.	On finalisation of the AFS, the municipality should always ensure that final and accurate amounts are presented and reported on the Statement of Comparison of Budget to Actual. Material variances must be validated and clearly explained under the corresponding note to the statement.	
Unaudited Reportable Segments		
In the Draft AFS submitted for review, the total and subtotal amounts presented on the Statement of Segment information did not reconcile back to the SOFPER and SOFPOS. The line-item information on cash flows from operating, investing and financing activities was not updated as these amounts did not agree back to the CFS presented in the Draft AFS. This finding was subsequently resolved on the final AFS submitted on the 31 August 2024.	The municipality should ensure that figures presented in the Segment report statement are updated once the AFS is finalised prior to submission to the KZN PT and AGSA.	N/A

Investment property – Note 2		
Included in the Draft AFS submitted for review, it was noted that an amount of R11,170,000 was transferred out of Investment property to PP&E (Land). The Municipality did not include a note indicating the nature and reason for the change of recognition or change of use in asset.	The Municipality should ensure that the Investment Property note clearly indicates the reason for the reclassification or change. The disclosure must provide information on the reason and nature of the reclassification of the assets from IP to PP&E. This will enable users of the information to understand the context of	N/A

Included in the Draft AFS submitted for review, Credit balances totalling R10 534 111 was incorrectly presented. The "add back" of credit balances which should normally increase the closing receivables balance, was presented to reduce the overall receivables balance. This finding was subsequently resolved on the final AFS submitted on the 31 August 2024.	The municipality should review the balances presented to ensure correct classification, presentation and disclosure of the amounts within each debtor's category. The reallocation of "credit" receivables balances to payable, should be presented without brackets in the note.	N/A				
VAT on Consumer Debtors - Statutory Receivables (Note 9)						
Included in the Draft AFS submitted for review, it was noted that VAT on consumer debtors greater than 120 days was incorrectly presented as R57,988. Furthermore, the overall reduction in the balance from 2022/23 to 2023/24 was 48.5% which was also inaccurately presented. The VAT portion on Consumer debtors was inconsistent with the Net Consumer debtors (statutory receivables) balance. b) Challenges

There were no pertinent challenges and risks identified from the execution procedures, and review of the AFS plan. The following was identified and brought to our attention by the Municipality on the 30 August 2024:

- A review was undertaken of the final draft version of AFS and comments were shared with the Municipality on the 29 August 2024.
- On the 30 August 2024, the Municipality identified further adjustments and prior year entries to the Trial balance that required to be processed. These adjustments were in respect to the Housing component.
- Arising from the late entries to the system, the Trial balance required to be reimported, and final checks needed to be performed to the updated version of the AFS.

c) Findings, Recommendations and Action Plan

The findings below were identified as part of the AFS review process and these were subsequently addressed prior to the final submission of AFS to the Auditor General.

4.3 Provide technical assistance and audit support (risk based approach)

a) Work performed against deliverables

As the nature of the majority of Audit findings received from the AGSA were outside the scope of the AFSR support initiative, the technical assistance provided to the municipality was limited to the review of some of the key management responses to the communication of audit findings (COMMAFs) received from the AGSA. Communications of Audit findings were shared with us as they were received.

The majority of findings received from the AGSA included the following amongst others and these were outside the scope of the AFSR support initiative:

- Performance audit related issues on projects
- Procurement and contract management
- Performance information
- UIF&W compliance
- Project Management and infrastructure
- Material losses on electricity
- Non-compliance
- Scope limitation arising from the non-submission of documentation requested by the AG

An RFI tracker schedule was prepared setting out details of the information requested, and the timeframe within which to submit this information.

4.4 Skills Transfer and Capacity Building

a) Work performed against deliverables

- Engaged with the respective directors regarding the nature of the training to be conducted for municipal officials. The training was informed by the audit outcomes from the previous reporting period as well as challenges faced by staff at the municipality in preparation of reconciliations and registers.
- The training areas were also informed by the key focus areas identified during the 2022/23 AFS review support initiative as well as the training needs identified during the 2023/24 AFS review support initiative and feedback received from the respective directors on the training.
- Training was provided on the following:
 - Training session Part I: Guidance on Preparation of key reconciliations and Guidance on Preparation and review of registers.
 - Training session Part II: Guidance on compilation of retention registers, creditors reconciliations including Practical examples.
- The content of the Guidance on preparation of key reconciliations included the following key focus areas:
 - Basic principles of a reconciliation
 - How to perform a reconciliation
 - Reconciliation timeframes
 - Examples of reconciliations within Finance
 - Common reasons for reconciliation variances
 - Practical examples
 - Basic reconciliation checklist

b) Challenges

- There were no pertinent challenges noted during the execution of this deliverable. The overall feedback and level of engagement and interaction demonstrated by the officials responsible for financials and related sections was good.

c) Findings, Recommendations and Action Plan

- We recommend that the municipal officials keep abreast of GRAP updates. Information is available on the Accounting Standards Board (ASB) website: <https://www.asb.co.za/grap/> and includes the Standards, Guidelines, Directives, Frequently Asked Questions on the Standards of GRAP as well as Fact Sheets.
- The ASB publishes Directive 5 on their website annually, which lists the standards and pronouncements that form the GRAP Reporting Framework. The appendices will be updated on an annual basis to recognise new Standards of GRAP that have become effective, and standards and pronouncements issued by other standard setters.
- We also recommend that municipal officials attend training initiatives offered by the ASB (GRAP Updates), National Treasury (Masterclasses) and KZN Provincial Treasury (CFO Forums and Training Seminars).

7. Acknowledgement By Municipality

I have reviewed the work performed relating to the project (including findings, challenges, recommendations and action plan) as stated above and I am satisfied that the above represents a true and fair view of the outcome of the 2023/24 AFS review initiative conducted at Kwadukuza Local Municipality for the period from July 2024 to January 2025 and I will continue to implement the improvements introduced by KZN PT.

I also note that in terms of Section 62(1)(b) of the MFMA, the Accounting Officer of a municipality is responsible for managing the financial administration of the municipality and for this purpose must take all reasonable steps to ensure that full and proper records of the financial affairs of the municipality are kept in accordance with any prescribed norms and standards.

Further, I acknowledge that in terms of Section 122 of the MFMA, every municipality must for each financial year prepare annual financial statements which fairly presents the state of affairs of the municipality, its performance against its budget, its management of revenue, expenditure, assets and liabilities, its business activities, its financial results and its financial position as at the end of the financial year and disclose the information required in terms of sections 123, 124 and 125 of the MFMA respectively.

I fully commit to ensure that the close out report and action plan with the findings and recommendations are presented and tabled to Council.

Unaudited Statement of Comparison of Budget & Actual Amounts						
5.	In the Draft AFS submitted for review, the Statement of Comparison of Budget and Actual Amounts did not refer to any corresponding note which sets out the variances. On the statement, reference was also incorrectly made to 30 June 2023 Final Budget as the amounts were not updated to reflect budget information for the period 30 June 2024. Dear Mr. N.J Mdakane

**HIGH LEVEL ASSESSMENT OF THE 2024/25 ADJUSTMENTS BUDGET APPROVED IN TERMS
OF SECTION 28 OF THE MUNICIPAL FINANCE MANAGEMENT ACT, ACT NO. 56 OF 2003 (MFMA)**

1. Your Adjustments Budget for the 2024/25 financial year submitted to Provincial Treasury in accordance with Section 28(7) read in conjunction with Section 22(b) of the MFMA and Regulation 21 of the Municipal Budget and Reporting Regulations (MBRR) refers.
2. A general Compliance assessment was conducted on the 2024/25 Adjustments Budget that was approved by Council (Schedule B) and is set out in Annexure A.
3. Provincial Treasury also conducted a high level assessment of your 2024/25 Adjustments Budget with a view of assessing whether the municipality has adjusted their 2024/25 Original Budget to account for the revised National and Provincial funding allocations that were made available, where applicable, and has approved a funded 2024/25 Adjustments Budget.
4. It should be noted that the funding position of your 2024/25 Adjustments Budget was determined based on the Adjustments Budget data string (ADJB) that was submitted to the National Treasury GoMuni Upload Portal together with your 2024/25 Adjustments Budget which reflects the figures that the municipality has on their financial system. The assessment considered the cash flow impact of the budgeted Operating revenue and expenditure (Table B4) as well as the Capital revenue and expenditure (Table B5) as reflected in the Adjustments Budget data string (ADJB).

KWAZULU-NATAL PROVINCE

TREASURY
REPUBLIC OF SOUTH AFRICA

5. Based on a recalculation of the Cash/Cash equivalents at the year-end as per Table B7: Budgeted cash flows and the Surplus/(shortfall) as per Table B8: Cash backed reserves/accumulated surplus reconciliation of your 2024/25 Adjustments Budget in line with the National Treasury Budget funding assessment framework using the audited 2023/24 Annual Financial Statements and the Adjustments Budget data string (ADJB) figures from Tables B4 and B5 that were uploaded to the National Treasury GoMuni Upload Portal and downloaded by Provincial Treasury from the portal on 04 March 2025, your municipality's 2023/24 2024/25 Adjustments Budget appears to be **funded** in terms of Section 18 of the MFMA read together with MFMA Circular No. 55 and Regulation 22 of the MBRR which states that *an Adjustments Budget of a municipality must be appropriately funded*. The following findings are highlighted for your attention, amongst others:
- Operating performance

- Operational revenue

In the 2024/25 Adjustments budget, the municipality increased the budget for Operational revenue from R22.1 million in the 2024/25 Original budget to R28.7 million. In the Adjustments budget narrative report, the municipality reflected a detailed breakdown of the revenue sources which constitute the budget for Operational revenue. As per the table, the bulk of the increase relates to an increase of R6 million for Developers contributions.

Notwithstanding the increase in the budget for Operational revenue, the municipality reported performance of R28.1 million against Operational revenue as at the Month 08 (February 2025) in the Section 71 report which represents revenue generation of 97.7 against the 2024/25 Adjustments budget. Should the reported revenue be accurate, the 2024/25 Adjustments budget for Operational revenue may be understated when considering that 4 months still remain until the end of the 2024/25 financial year.

- Fines, penalties and forfeits

As per Table B4: Financial Performance - Operating Revenue and Expenditure, the municipality increased the budget for Fines, penalties and forfeits from R33.5 million in the 2024/25 Original budget to R40.95 million. In the Adjustments budget narrative report, the municipality reflected a detailed breakdown of the revenue sources which constitutes the budget for Fines, penalties and forfeits. As per the table, the bulk of the increase relates to an increase of R8 million for illegal/Unauthorised use of buildings and R1 million for Tampering fees which was offset by minor decreases in other sources of Fines, penalties and forfeits.

Notwithstanding the above, the municipality reported performance of only R22.4 million against Fines, penalties and forfeits as at the Month 08 (February 2025) in the Section 71 report. Should the reported revenue be accurate, the 2024/25 Adjustments budget for Fines, penalties and forfeits may be overstated if current revenue generation trends continue in the remainder of the 2024/25 financial year.

KWAZULU-NATAL PROVINCE

TREASURY
REPUBLIC OF SOUTH AFRICA

- Operating Expenditure and Operating deficit

The municipality budgeted for an Operating deficit of R231.7 million in the 2024/25 financial year. As per National Treasury's MFMA Circular No. 126, municipalities are encouraged to budget for surplus to avoid placing the municipality's resources in financial difficulties. The adoption of a credible budget starts with the preparation of a surplus budget. With effect from 01 July 2024, all municipal Councils were advised not to approve a deficit budget therefore, Mayors who table budgets to Council must be aware of the implications of a deficit budget. A budgeted Operating deficit implies that reserves accumulated by the municipality will be depleted.

As per MFMA Circular No. 71, an Operating deficit is indicative that there are financial imbalances that need to be addressed by the municipality. These problems may be related to a failure to collect revenues, tariffs that are too low or expenditures that are too high. Whatever the main cause of the deficit, the municipality needs to put in place appropriate strategies to address the problem.

In the 2024/25 Adjustments budget, the increased budgeted amount for Bulk purchases from by R211 million from R1.238 billion in the 2024/25 Original budget to R1.449 billion (increase of 17 percent) was the main reason for the municipality moving from a small surplus of R64 000 in the 2024/25 Original budget to a deficit position in the 2024/25 Adjustments budget. As per the municipality, the increase was due to the material energy losses. In the adjustments budget narrative report, the municipality indicated that a drastic action plan to reduce non-technical energy losses would have to be introduced, however no details were provided.

In the preparation of the 2025/26 Annual Budget, the municipality is required to develop an action plan to reduce non-technical energy losses in order to ensure that the municipality reflects a credible Operating surplus in Table A4. MFMA Circular No. 126 further states that Accounting Officers and their Chief Financial Officers are responsible for preparing budgets and accordingly are tasked with ensuring that the Mayor is guarded against submitting a deficit budget to Council for adoption. Failure to do so may result in Councils implementing Section 171 of the MFMA to both the Accounting Officer and the Chief Financial Officer.

It is of further concern that the budgeted amount for Repairs and maintenance (R113.1 million) represents only 3.1 percent of the Property, Plant and Equipment (PPE) value of R3.7 billion reflected in the 2023/24 Audited AFS, which is below the National Treasury guideline of 8 percent as stipulated in MFMA Circular 55 and may not be sufficient to address the energy losses being experienced by the municipality.

Capital budget

In the 2024/25 Adjustments budget, the municipality increased the budget for Transfers and subsidies - capital from National Government from R66.1 million in the 2024/25 Original budget to R377.7 million in Table B5: Adjustments Capital Expenditure Budget by vote and funding. The significant increase from the 2024/25 Original budget is due to the municipality budgeting for approved rollovers for the 2022/23 Municipal Disaster Recovery Grant: R338 million; 2023/24 Municipal Disaster Recovery Grant: R9.9 million; and 2022/23 Municipal Disaster Response Grant R10.4 million.

As per the Month 08 Section 71 report (February 2025) Section 71 report, the municipality reported revenue generation of only R199.6 million or 52.9 percent against the 2024/25 Adjustments budget of R377.7 million for Transfers and subsidies - capital from National Government which is far below a straight-line projection of around 67 percent as at the end of Month 08.

KWAZULU-NATAL PROVINCE
TREASURY
REPUBLIC OF SOUTH AFRICA

The low expenditure noted as at Month 08 is of significant concern and is an indication that the municipality may not fully implement projects funded from National allocations. The municipality runs the risk of surrendering of funds to the National Revenue Fund (NRF) should funds not be fully spent by financial year as evidenced by the fact that the municipality has already been impacted by latest Adjustments DoRA which reflected a decrease in the MIG allocation due to low expenditure (See point 6 below).

The municipality is requested to ensure that an action plan is developed in order to fully implement projects funded from National Government when considering that the majority of the budget relates to approved rollovers from prior periods. The rollover of an approved rollover to the 2025/26 financial may not be considered by National Treasury and the municipality runs the risk of surrendering even more funds to the NRF.

Budgeted cash flows

- Other revenue

Provincial Treasury was unable to comment on the reasonableness of budgeted collections per revenue source due to Table SB15: Adjustments Budget - monthly cash flow reflecting a different closing cash and cash equivalents balance of R2.1 billion which did not agree to the closing cash and cash equivalents balance of R974.6 million reflected in Table B7.

At the engagement on the Section 72 report, the municipality confirmed that the net impact of VAT are budgeted for against Other revenue. The municipality was requested to justify any anticipated receipts in respect of VAT (budgeted for against Other revenue) in the Adjustments budget narrative report. Despite the request, the municipality did not provide any explanation regarding VAT in the Adjustments budget narrative report. As per Table B7, budgeted cash inflows in respect of Other revenue amounted to R237.9 million and exceed corresponding sources of revenue of R123.6 million. As a result of the circumstances above, Provincial Treasury was unable to comment on the reasonableness of the budgeted cash inflow

- Transfers and subsidies – operational

As noted in Provincial Treasury's assessment of the 2024/25 Original budget, the municipality reflected an amount of R300.3 million in respect of Transfers and subsidies – Operational (Table A4). The budgeted amount included the National allocations as per the Division of Revenue Bill 50099 dated 8 February 2024 amounting to R283.2 million and R10 million as reflected in Provincial Gazette No. 2666 dated 14 March 2024. In addition, the municipality budgeted for an amount of R7.3 million ((EDTEA- Vuthela Funding: R6.3 million and CETA Candidacy: R1 million) which were not reflected in the gazette.

In the 2024/25 Adjustments budget, the municipality increased the revenue budget for Transfers and subsidies to R303.9 million. As per the Adjustments budget narrative report, the municipality indicated that the bulk of the increase relates to an increase in respect of the Housing accreditation grant from the Department of Human settlements from R1.8 million to R3.8 million as reflected in Provincial Gazette No. 2762 dated 12 December 2024.

As per the Adjustments budget narrative report, other minor increases were noted for EDTEA Prize Money (Operational): R158 500, Municipal Employment Initiative Grant (EDTEA): R77 900; Housing Accreditation Grant rollover: R15 400 and EDTEA - Natural Resource Management Project Phase 3: R1.2 million. Provincial Treasury is unable to comment on the reasonableness of the amounts budgeted in Table B4 the absence of supporting documentation.

KWAZULU-NATAL PROVINCE

TREASURY
REPUBLIC OF SOUTH AFRICA

In Table B7, the municipality budgeted for a cash inflow of R298.6 million against Transfers and subsidies - operational which is less than the budgeted revenue of R303.9 million in Table B4. As a result of the concerns raised on the budgeted revenue, Provincial Treasury is unable to comment on the budgeted cash inflow.

- Proceeds on disposal of PPE

In Table B4 of the Council Approved B Schedule, the municipality budgeted for a Loss of disposal of PPE of R8.3 million. Despite this fact, the municipality did not reflect any Proceeds on disposal of PPE in Table B7 which appears unreasonable.

Cash backed reserves/accumulated surplus reconciliation

In the 2024/25 Adjustments budget, the municipality budgeted for a cash surplus of R477.3 million in Table B8: Adjustments Budget Cash backed reserves/accumulated surplus reconciliation which may be impacted by the following findings:

- Cash and investments available

As per Table B6: Adjustments Budget Financial Position of the Council B Schedule, the municipality budgeted for a Closing cash and cash equivalents balance of R972.6 million which do not agree to the Closing cash and cash equivalents balance of R974.6 million reflected in Table B7. The formula in Table B8 recalculates the difference in the Cash and cash equivalents balance reflected in Table B7 to the amounts reflected in Table B6, thus a negative amount of R2 million is reflected against Other current investments > 90 days. As a result, the Cash and investments available reflected in Table A8 agree to the Closing cash and cash equivalents balance reflected in Table B6. Consequently, the Cash and investments available as reflected in Table B8 is understated by R2 million should the closing cash and cash equivalents reflected in Table B7 be accurate.

- Unspent Conditional transfers, Statutory requirements and Other provisions

In Table B8, the municipality budgeted for an amount of R64.8 million against Unspent conditional transfers, R61.4 million against Statutory requirements and R120.4 million against Other provisions with no justification in the Adjustments budget narrative report. As a result, Provincial Treasury was unable to comment on the reasonableness of the budgeted amounts in respect of Unspent Conditional transfers, Statutory requirements and Other provisions. As a result of the basis of calculation not being provided in the Adjustments budget narrative report, Provincial Treasury is unable to comment on the reasonableness of the Total Application of cash and investments of R261.8 million reflected in Table B8.

6. As per the Adjusted DoRB Gazette No.52381 dated 25 March 2025, the municipality's Municipal Infrastructure grant (MIG) allocation was decreased by R8.9 million from R60.5 million to R51.6 million. As such, the municipality is reminded to table an Adjustment budget within 60 days in terms of Regulation 23(3) of the MBRR.
7. Provincial Treasury Circular PT/MF 06 of 2024/25 dated 17 December 2024 required municipalities to ensure that the 2024/25 Adjustments Budget (Schedule B) approved by Council and the Adjustments Budget mSCOA data string (ADJB) are both produced directly from the financial system to eliminate the possibility of any differences and/or misalignments. In this regard, Provincial Treasury noted that all the figures reflected in the 2024/25 Schedule B approved by the Council align to the figures reflected in the ADJB.
